

CMAQ Program Frequently Asked Questions--NOACA

- 1. If the timing of the Board/Community resolution occurs after the due date, can we submit it late?**
 - a. *Yes, as long as:*
 - i. *NOACA staff is notified ahead of time*
 - ii. *NOACA staff determines the resolution will be submitted within a reasonable time frame*
- 2. Can a community submit the same resolution supporting a CMAQ project if they are resubmitting a previously un-funded application?**
 - a. *Yes, as long as the conditions of the original project application, such as project scope and costs, have not changed*
- 3. Is the approximately \$38 M allocation for the NOACA region a sub-allocation?**
 - a. *No, it is a regional target. The actual regional funding amount depends on how many strong applications come in from the region compared to other applications state-wide*
- 4. If an applicant was funded in a previous CMAQ round would that negatively impact their score for this round?**
 - a. *No*
- 5. If a project is located within more than 1 MPO region, does the applicant have to submit to both MPO's?**
 - a. **The application could do 1 of 2 things:**
 - i. *Submit the entire CMAQ eligible project scope to BOTH MPOs. Each will score the application, and the average score will be considered by the Statewide-CMAQ committee*
 - ii. *Break the project up in to two components, each within separate MPO jurisdiction, and apply for each phase separately*
