

**Request for Qualifications (RFQ) for State Fiscal Year (SFY) 2018-2019 Transportation for Livable  
Communities Initiative (TLCI)  
Addendum #2 Clarification regarding current TLCI consultant firms**

This RFQ reflects changes to NOACA's prequalification selection process to be more in line with TLCI program objectives. In light of this, NOACA issued a new Request for Qualifications (RFQ) for pre-selection on January 25<sup>th</sup> (Attached).

For those consulting firms who are already on NOACA's prequalification list we offer the following options. You may:

1. Ask that we consider the qualifications package already on file;
2. Supplement what we already have on file with updated qualifications; or
3. Resubmit a new qualifications packet in accordance with the attached RFQ.

Also, this is a competitive process. Those selected will be eligible for the FY2018-FY2019 TLCI program ending in June 2019.
