

WHEEZER THE FORECASTING GROUNDHOG

is what my friends down
at NOACA call me.

About me:

I have Asthma but it doesn't hold me back!
Like all groundhogs I can tell when spring is on the way just by looking at my shadow, but I have another special talent! Each day I rise from my hole, and with one big whiff I can tell how much pollution is in the air! Unhealthy levels make me sneeze and are a sure sign that an Air Pollution Advisory needs to go out to all my human friends.

Where I hangout:

I have family all over Northeast Ohio, so you can see me popping up anywhere there's some grass to nibble.

Likes:

Picnicking in big open fields, riding the bus, riding bikes, and playing in the rain

Dislikes:

Litter bugs and idling cars

How to be my friend:

Signup to get **Air Quality Advisories**, tell your friends about air pollution, and take **ACTION** or **download Wheezer's Action Plan Coloring Book!**
