

## NORTHEAST OHIO AREAWIDE COORDINATING AGENCY

### MEMORANDUM

**TO:** NOACA Board of Directors

**FROM:** Grace Gallucci, Executive Director

**DATE:** October 3, 2014

**RE:** **Resolution 2014-046 - Connections<sup>+</sup> 2035 – Minor Projects**

#### **ACTION REQUESTED**

The Board of Directors is asked to adopt Resolution 2014-046, which approves inclusion of the Minor Project Solicitation projects in the 1st Quarter Project Planning Reviews (PPRs). The Planning and Programming Committee recommend this action.

#### **BACKGROUND/JUSTIFICATION FOR CURRENT ACTION**

The Board adopted Connections<sup>+</sup> 2035, NOACA's long-range transportation plan (LRTP), in May 2013 (Res. 2013-011). It includes a listing of all projects exceeding \$5 million dollars in cost that are expected to be constructed by 2035. During the development of Connections<sup>+</sup> 2035, NOACA staff as well as project sponsors noted that it would be useful for NOACA to compile a similar inventory of minor projects in the region for inclusion into the plan. Thus, we launched a minor project solicitation in March with a requested deadline of April 21, 2014, for submissions. Some project sponsors requested extensions of that deadline and were afforded them.

The solicitation resulted in responses from all five county engineers and fourteen additional local governments. The majority (77 percent) of identified projects were for road rehabilitation. The total cost for all projects over the life of the plan is almost \$593 million. This averages out to almost \$30 million per year which is nearly equal to current NOACA attributable STP allocations and further documents that needs are far outpacing resources. This is also a low estimate as all local governments that could seek federal funding for their projects did not respond.

The list of projects to be amended to the plan is attached to the resolution.

Staff believes this effort can be paired with the ongoing transportation asset management program (TAMP) effort to allow the development of a more comprehensive and robust assessment of regional needs. The TAMP effort will identify needs based on existing condition ratings and projected life cycle. These needs could then be matched with the submitted projects as well as indicating where unreported needs exist.

Staff will also explore options for improving future solicitations to obtain more consistent and comprehensive results. Responses did not include a strong representation of bridge, safety, signal, and

non-rehabilitation projects. Development of an understanding of needs in these areas will likely require staff analysis and identification of likely projects followed by direct coordination with potential project sponsors.

As these efforts progress, we are hopeful that we can begin to better plan financially for the delivery of projects. We also believe that having clearly stated financial needs will aid in educating legislators and external funding partners regarding the gaps between existing resources and the resources needed to complete necessary projects.

**FINANCIAL IMPACT**

The minor projects inventory will improve our financial constraint analysis for the long-range transportation in the future by giving NOACA a better understanding of project needs and expectations.

**CONCLUSION/NEXT STEPS**

Following Board adoption, staff will work with project sponsors toward successful delivery of their projects.

GG/rl/bd/2795b

RESOLUTION OF THE BOARD OF DIRECTORS  
OF THE  
NORTHEAST OHIO AREAWIDE COORDINATING AGENCY

**WHEREAS**, the Northeast Ohio Areawide Coordinating Agency (NOACA) is the Metropolitan Planning Organization (MPO) for the counties of Cuyahoga, Geauga, Lake, Lorain, and Medina, and the areawide water quality management agency for the same region; and

**WHEREAS**, NOACA launched a minor project solicitation in March 2014 for inclusion into the plan; and

**WHEREAS**, the solicitation resulted in responses from all five county engineers and fourteen additional local governments with the total cost of all identified projects over the life of the plan of almost \$593 million; and

**WHEREAS**, this effort will be paired with the ongoing transportation asset management program (TAMP) effort to allow the development of a more comprehensive and robust assessment of regional needs; and

**WHEREAS**, the NOACA Transportation Subcommittee and Planning and Programming Committee reviewed the inclusion of the minor project solicitation projects in the 1st Quarter Project Planning Reviews (PPRs) and recommended that the Board of Directors approve the projects for inclusion into the Long Range Plan.

**NOW, THEREFORE, BE IT RESOLVED** by the Board of Directors of the Northeast Ohio Areawide Coordinating Agency, consisting of forty-five principal officials serving general purpose local governments throughout and within the counties of Cuyahoga, Geauga, Lake, Lorain, and Medina that:

**Section 1:** The referenced projects in Attachment A have had appropriate review and are recommended for approval.

**Section 2:** The NOACA transportation plan is amended to include the projects in Attachment A.

**Section 3:** The Executive Director is authorized to transmit certified copies of this resolution to appropriate federal, state, and local agencies.

Certified to be a true copy of a Resolution of the Board of Directors of the Northeast Ohio Areawide Coordinating Agency adopted this 10th day of October 2014.

Secretary:  \_\_\_\_\_

Date Signed: 10 OCT 14
