

**NOACA Air Quality Public Advisory Task Force**

**Corrections Sheet**

**PM<sub>2.5</sub> SIP Recommendations**

**June 12, 2007**

Please note the following corrections to the Mobile Source Work Group Report and the Stationary Source Work Group Report:

- 1.) In "Mobile Sources" the references to encouraging the use of E85 ethanol should be to "Government and the Public" in each instance.
  
- 2.) In "Stationary Sources" the category of "emergency use diesel gen-sets operating at fewer than 500 hours per year" should be exempted from the proposed RACT recommendation.
