

NEFCO Clean Water Plan

Utilizing the 208 Water Quality Management Plan

- WQMP as water quality protection tool
- WQMP as a tool for implementing plans
 - Use of wastewater prescriptions in Plan to guide development
- Examples:
 - Wayne County Comprehensive Plan
 - Concentrates development in and around its three cities

- Toledo Metropolitan Area Council of Governments
 - Erie Township's interest preserving "rural atmosphere"
 - How done? Residents aligned their
 - Master plan
 - Zoning plan
 - 208 plan

- Geauga County
 - Maintain rural atmosphere
 - Apply wastewater prescriptions to the parcel level
 - In combination with zoning, limit future sewerred areas

- Ongoing use of Regional Councils (Areawides) as a forum for:
 - Discussing regional problems
 - Discussing potential solutions

- Responsibility of the Areawides to Maintain their 208 Plans
 - How done?
 - o Communication at Environmental Committees and Boards
 - o Opportunities to learn about and discuss
 - Potential, pending, final rules and regulations
 - o Opportunities to learn about new wastewater technologies, techniques
